PROJECTS

Book Finder Web Application, Tools & Technologies: Java, HTML, CSS, JavaScript

- Developed a web application to search and view books using Java for the backend.
- Implemented the frontend using HTML, CSS, and JavaScript for a responsive user interface.
- Added search functionality and dynamic results to improve user experience.
- Designed the application to be mobile-friendly and visually appealing.

Lung Cancer Detection Using Spirometry and AI, Tools & Technologies: Python, Pandas, NumPy, ML

- Developed a system for early lung cancer detection using spirometry device readings.
- Applied machine learning algorithms to analyze exhaled air patterns.
- Classified cancer stages based on processed spirometry data.
- Enabled early monitoring and warning for high-risk patients.

INTERNSHIPS

Cloud Computing Intern, Pantech E-Learning 2/2024 – 8/2024

- Applied cloud computing concepts including virtualization, scalability, and resource management
- Worked with cloud service models (IaaS, PaaS, SaaS) in practical learning environments.
- Gained hands-on exposure to cloud deployment, cloud security fundamentals, and data storage techniques.
